

WOLF KING

Committed to manufacturing high-end heating and freezing equipment

致力于高端加热和速冻设备

公司简介 Company Profile

OUR BRAND

01

WOLF KING 狼王科技，致力于高端食品加热、制冷设备及相关配套生产线制造。

Wolfking is committed to food processing, steaming, frying, heating and other processing equipment and production lines R & D, intelligent manufacturing, technical services.

02

Powertech 宝泰科技，致力于提供虾类、鱼类等水产品的剥壳、开片、去皮等自动化生产线及整体解决方案提供。

Powertech is dedicated to the design and integration of aquatic products processing automatic production lines such as shrimp, fish and other aquatic products.

03

LAN 锐澜科技，致力于提供食品加工行业整体解决方案及关键设备制造。

Lan Foodtech is committed to R & D, manufacturing and service of high speed quick-frozen equipment and supporting systems.

Whole Pack Engineering

致力于新产品的研发、整体工厂规划、设计、升级、成套工程实施以及后续的技术服务（培训、维保、备件、升级方案）。

Devotes to R & D of new products, overall factory planning, design, upgrading, implementation of complete sets of projects, and subsequent technical services (training, maintenance, spare parts, and upgrading programs)

致力于打造高端加热和冻结设备

Dedicate to provide high-end heating & freezing equipment

专注于提供食品加热&冻结设备及整体解决方案！

Focus on food heating & freezing equipment and total solution!

企业使命
Mission

**致力于食品加工关键设备
和整体解决方案**

Committed To Food Processing Key Equipment
And Turnkey Solution

企业愿景
Vision

**成为行业内可信赖品牌
和优质的合作伙伴**

To Be A Trusted Brand And A Quality Partner
In The Industry

价值观
Value

正直 诚信 尊重 共赢

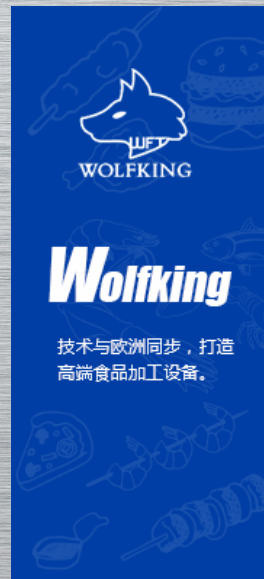

Integrity Honesty Respect Win-win

团队核心成员均拥有**20年**以上从业经历，先后为国内外2000多家客户提供产品和服务，产品遍布于包括：

中国，俄罗斯，美国，印度，澳大利亚，东南亚，中南美洲等在内的全球四十多个国家和地区。长期的耕耘，让我们对行业更“懂”。关注每一位客户的需求，坚持精益求精的工匠精神，让客户得到满意的体验！

The members of the core team have more than 20 years' experience. We have provided products and services for more than 2,000 customers in the world. The long-standing professional team, well established food industry network lead us fully aware of industry demand. Pay attention to every customer's need, adhere to the spirit of craftsmanship and let customers get satisfactory experience.

公司以智能食品加工生产设备及其自动化生产线的研发、生产、销售、服务为主营业务，拓展全产业链的设备制造和产业服务。

The company focuses on the R&D, production, sales and service of intelligent food processing and production equipment and automated production lines, and expands the equipment manufacturing and industrial services of the entire industry chain.

自主研发R&D

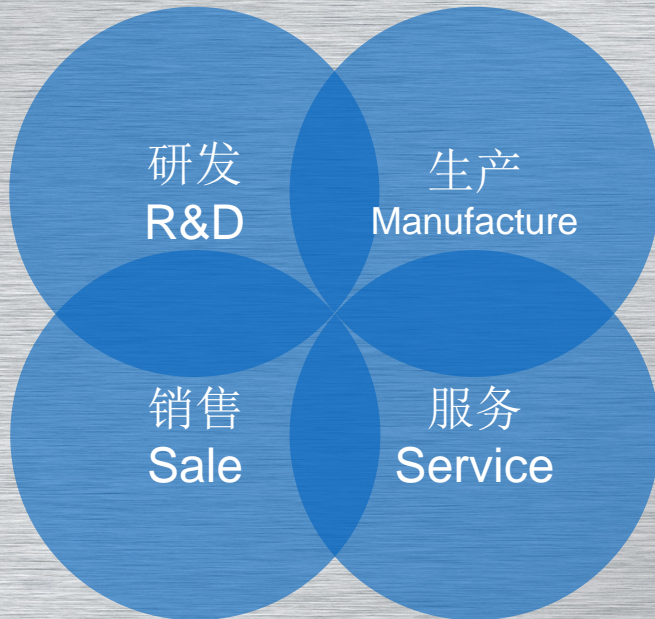

通过技术团队自主研发新产品，每年申请专利不低于10项
(实用新型和发明专利)

Through the technical team to independently develop new products, the number of patent applications per year is not less than 10 (utility model and invention patent)

全球销售Global sales

产品销售面对全球市场，主要市场：中国、南美、东南亚、美国、俄罗斯、澳洲、印度

Product sales to the global market, major markets: China, South America, Southeast Asia, the United States, Russia, Australia, India

精益制造Manufacture

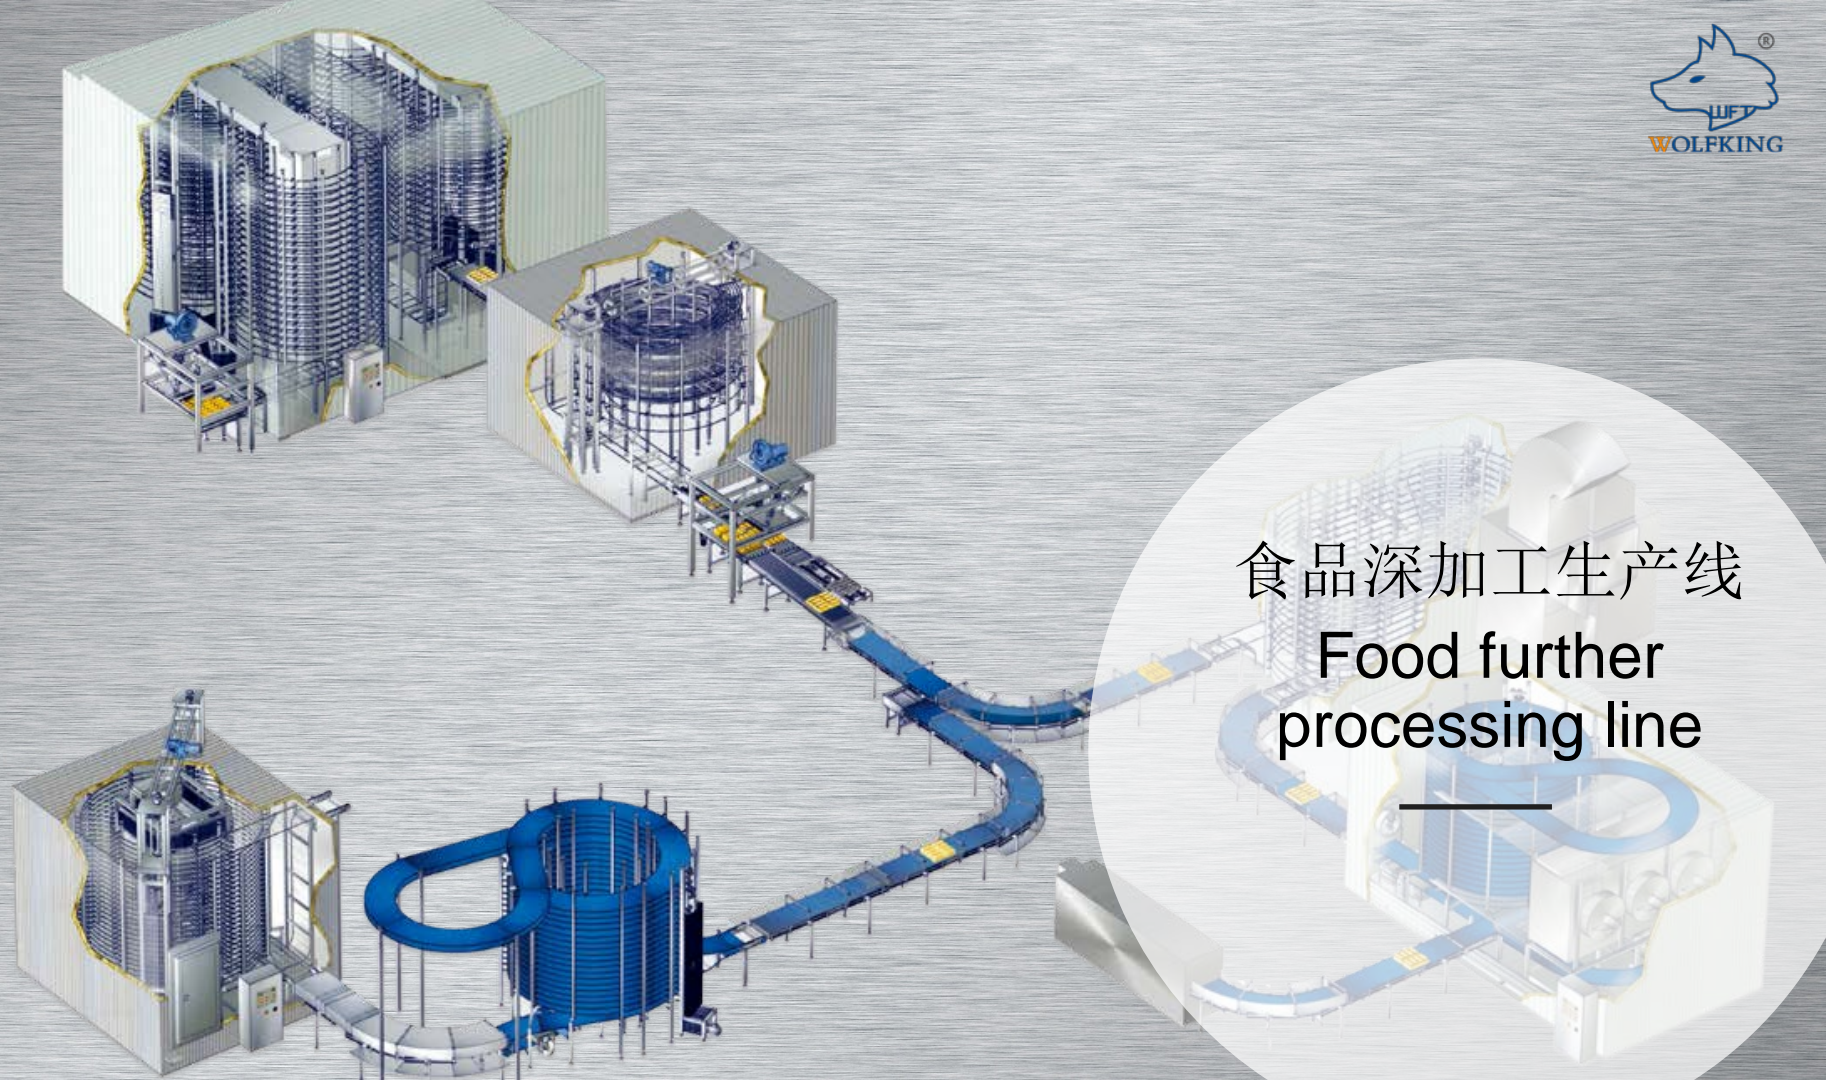

制造以数控加工中心、激光切割系统等自动化、智能化、高精度的设备为主，品牌选择国际知名品牌或国内一线品牌

The company manufactures automatic, intelligent and high-precision equipment such as CNC machining centers and laser cutting systems. The brand chooses international famous brands or domestic first-line brands.

5S服务Service

突破传统的售后服务模式，采用CRM服务体系，建立客户数据库，不断创新服务，树立业界优质口碑

Break through the traditional after-sales service model, adopt the CRM service system, establish a customer database, continuously innovate services, and establish a high-quality reputation in the industry.

中国合作客户

Our customers in China

Our customers in SEA, India and Oceania
东南亚、印度和大洋洲合作客户

SAN MIGUEL CORPORATION

Our customers in America Latina

拉丁美洲合作客户

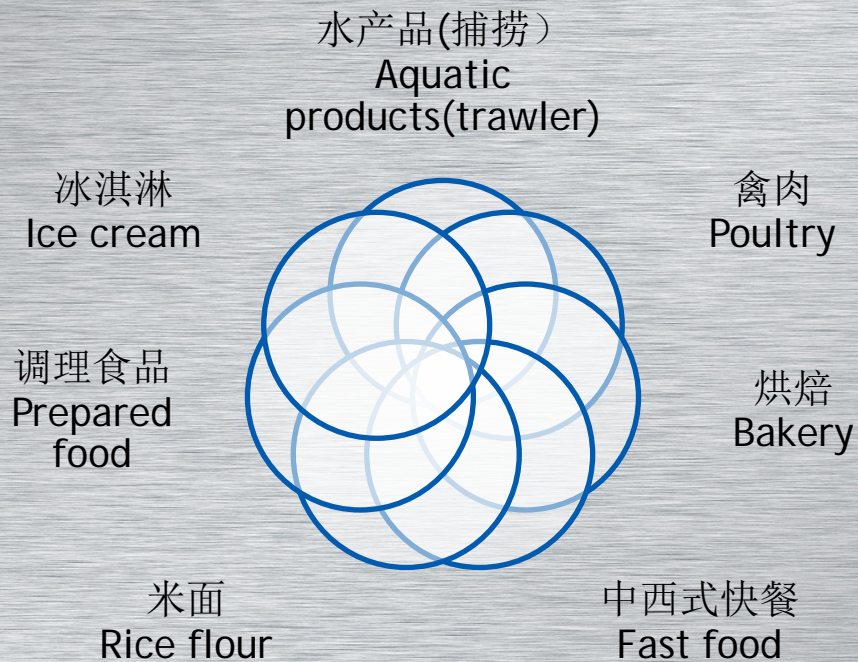

Our customers in USA & Canada

美国&加拿大合作客户

Service for food processing and frozen industry

生产车间Workshop

设备配置Equipment:

激光切割系统, 数控折弯机, 数控加工中心, 数控剪板机, 自动弯管机, 各种焊接机, 数控铣床, 自动充注发泡机

Laser cutting system, CNC bending machine, CNC machining center, CNC shearing machine, automatic pipe bending machine, various welding machines, CNC milling machines, automatic filling and foaming machines

制冷系统Refrigeration system

性能

油循环系统采用独特的强制供油和差压供油相结合的方式，保持压缩机循环油的优化。压缩机的COP值比无油泵式高5%。

油气分离器，高效换热管，专用油泵。

各种控制方式和配置

标准配置包括手动控制、半自动控制和自动控制三种控制方式。

制冷压缩机机组的控制方式是自动控制方式。

PERFORMANCE

The oil circulation system uses a unique combination mode of forced oil feeding and differential pressure oil feeding to keep the optimized cycle oil of compressor. The COP value of the compressor is 5% higher than the oil-free pump type.

Oil and gas separator, high-efficiency heat exchange tubes, dedicated oil pump.

VARIOUS CONTROL MODES AND CONFIGURATIONS

The standard configuration includes three sorts of control modes such as manual control, semi-automatic control and automatic control.

The control mode of refrigeration compressor units is automatic control mode.

制冷系统

Refrigeration system

Ammonia
CO2
Freon

- 可靠耐用的进口机械密封
- 高精度吸滤筒
- 多级油分离系统高效分子筛
- 油冷却器系统可通过热虹吸管或水冷器冷却
- 强制供油与差压供油相结合的润滑系统
- 控制方式与配置的多样化
- Reliable and durable imported mechanical seal
- High precision suction and filter cartridge
- Multistage oil separation system, high efficiency molecular sieve
- The system of oil cooler can be cooled by hot siphon or water cooling
- Lubrication system combining forced oil supply and pressure differential supply
- Diversification of control mode and configuration

工程技术中心 Engineering Technology Center

整体工厂规划、设计、工艺、成套、施工、交付

工厂生产线自动化升级改造、工艺流程优化

培训、维保、备件整体服务

Overall plant planning, design, process, complete sets, construction, delivery

Factory production line automation upgrade, process optimization

Training, maintenance, spare parts overall service

我们的优势 Our advantages

- 1、核心团队均拥有20-30年的行业服务经验和积累，深“懂”行业痛点需求
- 2、致力于为食品加工企业加工升级，深入可视化人机互动智能化应用开发
- 3、技术领先的关键设备研发和整线设计和制造能力
- 4、丰富的行业合作资源整合和应用经验
- 5、拥有经验丰富的专业服务人员和便捷先进的4S主动服务模式
- 6、研发设计理念同步国际行业水平，坚持绿色、安全、高效的价值观

- 1、 More than 25 years' long standing professional team, well established food industry network lead us fully aware of industry demands.
- 2、 Successful applications from concept design to tailored installation in multiple food processing industries with optimum operation and easy maintenance.
- 3、 Provide customized Innovative, flexible and integrated solutions to individual client's requirements.
- 4、 Strong Research and Development team always at the forefront of the latest technologies, environmental friendly solutions and cost savings initiatives to meet highest international standard.
- 5、 Established experienced service network

服务于食品加工与食品冷冻冷链工程，致力于提供关键设备和整体解决方案！
Serving food processing and food freezing cold chain engineering, committing to
providing key equipment and overall solutions.

Thanks !
